

Reasons to be proud

Congratulations to **Goodness Onwuka**, a master's student in Mechatronics, who came third in the national finals of the Institute of Materials, Minerals and Mining Southern Africa Young Persons' Lecture competition on 21 May 2015. He presented a lecture on "*Ductile-Mode Machining of Brittle Materials*".

This prestigious competition is aimed at young scientists and engineers, aged 28 and younger, in the disciplines of Materials, Minerals, Mining, Packaging, Clay Technology and Wood Science, which includes representing South Africa in the World competition in Ireland in October. Goodness won a cash prize for this 3rd place.
